Hi, Kelly. I wanted to follow up again on the message below regarding the FMC Independent Review. We are still working with our Washington DC office on this issue and with the holidays upon us, it doesn't look like we will be able to convene a conference call with the Tribes on this until after the new year.

Also, thank you so much for submitting the revised budget break out. I told Ricardo Solis that it looked fine and it is my understanding that he is processing whatever paperwork is necessary. I appreciate your patience with this.

Take Care,

Beth

Hi, Kelly. This is a follow up to the voicemail I left you earlier today. Due in part to resource constraints, we are working with our Washington DC office to shift EPA's lead coordination role for the FMC Independent Review from Region 10 to Headquarters. I apologize that this is taking longer than we anticipated. I am hopeful that maybe we can have a joint call with you all later next week or the following week to discuss the next steps for this important project.

Have you had the opportunity to submit a revised budget breakout to the Project Officer (Ricardo Solis) reflecting the shift in hours/dollars from the contract line item to in-house tribal resources? Having all these administrative pieces in place will help facilitate moving forward on this project.

Beth

Jon, we are ready to move forward. David is hired and waiting. When would be a good time to set up our next steps. Have a great holiday weekend!

Thanks
Kelly
